Solicitation Number:	Reference-Number-CTQMAGTF-05-0001
Posted Date:	Mar 14, 2005
Original Response Date:	Mar 28, 2005
Current Response Date:	Mar 28, 2005
Original Archive Date:	Apr 12, 2005
Current Archive Date:	Apr 12, 2005
Classification Code:	58 -- Communication, detection, & coherent radiation equipment
Naics Code:	517910 -- Other Telecommunications

### Contracting Office Address

Department of the Navy, United States Marine Corps, Marine Corps Systems Command, 2200  
Lester Street, Quantico, VA, 22134-5010

### Description

Marine Corps Systems Command (MARCORSYSCOM) is conducting market research in accordance with Part 10 of the Federal Acquisition Regulations. MARCORSYSCOM requests information from industry to determine the state of technology concerning the development, integration, and production of items or systems similar to the Marine Corps? Universal Communications Interface Modules (UCIM). The intent of the market research is to get feedback from a wide array of sources to determine if there are any currently available technologies (e.g. NDIs) or technologies that can be quickly developed or procured, and

integrated. Initially, solutions may be used in tactical vehicles, but may eventually become ubiquitous to Marine Corps tactical ground, air, and maritime communications systems and C2 platforms.

This synopsis is for information and planning purposes only and is not to be construed as a commitment by the Government. No contract will be awarded as a result of this Sources Sought solicitation. Respondents will not be notified of the results. Please do not submit classified material. No reimbursement will be made for any cost associated with providing information in response to this synopsis. All responses must be submitted NLT March 28 2005. All information relative to this effort is available to industry through the MARCORSYSCOM website at the following site: <http://www.marcorsyscom.usmc.mil/sites/ctq/ucim.asp>. Questions regarding this effort should be addressed to the below contact.
